

## Developed Driving Competence Assessment

<b>Did the driver demonstrate:</b>	0	1	2	3
------------------------------------	---	---	---	---

<b>Making progress on the road safely and responsibly while driving:</b>				
In urban and rural environments				
On any class of road				
At various times of day				
In differing lighting and weather conditions				
Total				

<b>Applying a systematic approach to driving showing:</b>				
Awareness of what is happening on the road around, including behind				
Correct and appropriate response to all road signs and markings				
How to prioritise emerging and actual hazards and plan to deal with them effectively				
Selection and maintenance of a suitable position on the road				
Travelling at a suitable speed				
Selection of the appropriate gear to be able to manoeuvre the vehicle				
Response to hazards				
How to minimise the environmental impact of the vehicle				
Total				

<b>Giving a verbal commentary with no reduction in driving competence showing:</b>				
What was seen on the road around				
What is understood about the principles of eco-driving				
How to adjust the driving style in response to what has been seen and understood				
Total				

<b>Maintaining appropriate attitudes to all other road users at all times</b>				
Total				
Overall Totals
